

# INSTALLED TRAINER™

PRISim Suite® InstalledTrainer™ is a judgement evaluation and force options training system, loaded with features to meet your training needs. By design, it creates a safe, effective and realistic learning environment for law enforcement, military and security professionals.

PRISim Suite InstalledTrainer places participants in an interactive environment where they must overcome potentially deadly mistakes, indecision, sudden fear, partial understanding, blind-side surprise, eye-blink response and life or death choices.

PRISim Suite is a training tool that promotes positive learning and skills that are difficult to recreate by other training methods.

## KEY FEATURES

- Supports ShootBack Cannon.
- Presents consistent training and learning objectives for each trainee.
- Supports a broad range of standard issue firearms and less than lethal devices.
- Supports multiple shooter and multiple laser devices simultaneously.
- Supports all levels of force options.
- Firearms control (simulates stoppages and reloads using tethered weapons).
- Integrated presentation viewer for briefing and debriefing.
- Review and export of training performance.
- Ceiling mounted projector and camera allows trainees freedom of movement.
